

Nicole Clare Fraser | untitled (façade)

This body of work by Nicole Clare Fraser is an exploration of space and object. The spaces captured by Fraser are everyday places she has encountered and recorded with a critical eye, looking closely at compositional elements and a soft sense of tonality. Fraser's photography explores a sense of quiet, solitude and the mundane in a poetically atmospheric manner. The images are captured on 35mm black and white film and are hand-printed in the darkroom by the artist.
