

# LISOLOMZI PIKOLI | INSIDE, BESIDE & AROUND US

Imagination, immersion and trans-disciplinary experimentation inform the journey this exhibition symbolizes for artist Lisolomzi Pikoli in his solo exhibition INSIDE, BESIDE & AROUND US at 99 Loop Gallery. The works represent a sense of place we navigate as a journey in three parts that foregrounds contemporary visual culture using memory, identity and the intimacy of 'self' as the artist traverses the personal and the collective through narratives in parallel.

"Through this body of work I crafted a journey into the non-prescriptive cognitive world I occupy and hope to stimulate reflection, engagement, and an intergenerational conversation that raises concern around some very real human fears in contemporary society. For example, defining a sense of place, environmental distress, the role of roots, origins and identity in informing our future, and the uncensored access to information online."- Lisolomzi Pikoli

The artist excavates personal and collective memory to foreground how both inform his journey interfacing with the world creatively through a multiplicity of mediums. His works are representative of a generational gaze and embodies their lived experiences and contributions to art, illustration design, street art and digital cultures in Africa and globally.
